

# Building Belonging, Opportunity, and Academic Success for African American Youth

We partner with schools, families, and communities to support African American students through mentorship, advocacy, and culturally responsive programs that strengthen well-being, confidence, and academic success.

LEARN HOW WE SUPPORT STUDENTS

We create pathways for African American youth in Contra Costa County to thrive through dedicated mentorship, guidance, and unwavering support.

## What We Do

### School-Based Mentorship & Advocacy

Trusted mentors support students academically and personally while advocating for their needs within school systems.

PARTNER WITH US

### Family Engagement

We strengthen communication and partnership between schools and families through events and consistent outreach.

PARTNER WITH US

### Mental Health Awareness & Referrals

We promote mental wellness and connect families to culturally responsive resources.

PARTNER WITH US

### Academic Support Connections

We connect students to tutoring and skill-building resources that reinforce classroom learning.

PARTNER WITH US

African American students and families in Contra Costa County face long-standing barriers to educational equity, connection, and access to resources. Delta Bay Impact exists to change that narrative—by creating safe spaces, trusted relationships, and pathways to opportunity rooted...

# About DBI

Delta Bay Impact empowers African American youth and families by addressing educational inequity through mentorship, advocacy, and culturally responsive support systems.

Delta Bay Impact (DBI) was founded in 2023 to address the achievement gap for elementary, middle, and high school students and advance educational enrichment, financial empowerment, and holistic health to improve the lives of African American youth and families in Contra Costa communities.

We assist African American youth in overcoming historic barriers to educational equity by addressing the social determinants that create barriers to academic success and a sense of belonging, positive mental health and life skills, and pathways toward career/college opportunities and income mobility.
